# What Is Crypto Currency Trading?

- ❖ Buying and selling crypto currencies via an exchange
- When you buy crypto currencies via an exchange, you purchase the coins themselves. You'll need to create an exchange account, put up the full value of the asset to open a position, and store the crypto currency tokens in your own wallet until you're ready to sell.
- Exchanges bring their own steep learning curve as you'll need to get to grips with the technology involved and learn how to make sense of the data. Many exchanges also have limits on how much you can deposit, while accounts can be very expensive to maintain.

# About Cryptocurrency

TYFUN TRADE  
TOKEN

Cryptocurrency Is Decentralized digital money, Based on Blockchain Technology. You May be Familiar with the most popular version, Bitcoin, Ethereum, Tron, But There are more than 8,000 Cryptocurrency in Circulation. You can Use crypto to buy Regular goods & Services, Although many People invest in cryptocurrencies As they would in other assets, like stocks Or precious metals. While Cryptocurrency is a novel & exiting Assets Class. Purchasing It can be risky as you must take on a Fair amount of research to Fully understand How each system Works.
